SUMMARY

Third-year B.Tech Computer Science student at VIT Bhopal with hands-on experience in front-end development, UI/UX design, and machine learning. Completed a research internship at IIT ISM Dhanbad, worked on sentiment analysis using RNN architectures and backend development using Laravel. Passionate about building user-centric applications and growing in AI-driven solutions

SKILLS

- **Programming Languages:** Python, PHP, JavaScript
- **Computer Science Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Problem Solving
- **Web Development:** HTML, CSS, Laravel (MVC), REST APIs, MySQL, SQL
- **Machine Learning & AI:** Sentiment Analysis, Natural Language Processing (NLP), Recurrent Neural Networks (RNN), TensorFlow, Keras
- **Tools & Platforms:** Git, GitHub, HeidiSQL, Canva

PROJECTS

Comparallel: Multi-Platform Price Comparison Tool | 2025

- Developed a responsive front-end for a Python-based price comparison tool, scraping data from 4+ e-commerce platforms.
- Designed user-friendly UI/UX to display price comparisons, enhancing accessibility for end-users

Parxon: Mobile App for Parkinsons Disease Support | 2024

- Contributed UI/UX and front-end development for a mobile app aimed at assisting Parkinson's disease patients, ensuring an intuitive and accessible interface.
- Collaborated with a team to integrate user feedback, improving app functionality and design

WORK EXPERIENCE

Research Intern

June - August 2025

Indian Institute of Technology (IIT) ISM Dhanbad, Dhanbad, India

- Conducted sentiment analysis research using Recurrent Neural Networks (RNN) to analyze textual data, enhancing model accuracy for real-world applications.
- Developed web applications using PHP (Laravel framework), implementing robust backend functionalities to support dynamic user interfaces.

EDUCATION

Vellore Institute of Technology, Bhopal

Sept 2023 - Sept 2027

B.Tech in Computer Science and Engineering

CGPA - 8.32

PARTICIPATIONS

VIT Bhopal - Johns Hopkins Health Hack

Feb 2025

Built and presented a healthcare prototype shortlisted for the **final evaluation** round

ADDITIONAL

- Strong problem-solving and debugging skills
- Experience working on real-time, scalable systems
- Familiar with agile development and team-based workflows
